

VEGETABLE OILS, SHORTENINGS, DRESSINGS, AND SAUCES

Job Title:

Maintenance Mechanic I - (Second Shift)

About Columbus

Columbus Vegetable Oils has evolved from a small father and son packing company to a reputable force in the fats and oils industry. As a dependable collaborative partner we focus on helping business grow via quality, availability, service, and expertise.

Highlights:

In the role of a Plant Maintenance Mechanic working at the Columbus Vegetable Oils facility in Des Plaines Illinois you will be part of the Maintenance Team in Production Operations. Our maintenance team is the backbone of the company that keeps the plant flowing. You will be responsible for playing an important role in ensuring that our production facility is running smoothly so we can meet the growing demand for our products.

This position reports to our Maintenance Manager and works closely and collaboratively with our production teams.

The Responsibilities:

- Evaluate problems and generate options to find actionable practical solutions
- Support production operations, developing SOP's, quick-fix routines for the breakdown process and carrying out work activities as planned during maintenance windows
- Perform preventive maintenance routines, making revisions and process improvements to increase effectiveness
- Understands the importance of the production cycle and process to minimize line downtime to maximize production and output
- Understanding of general maintenance principals related to PLC's, hydraulics, pneumatics and electrical equipment
- Perform equipment changeovers and production line set up
- Troubleshoot motor control circuits, drives and plc systems
- Replace broken belts, bearings and motors on equipment as necessary
- Follow SOP's and GMP's
- Perform electrical, plumbing, pneumatic and hydraulic task
- Troubleshoot and repair electric forklifts as needed
- Perform all other duties as assigned by supervisor or manager

30 East Oakton. Des Plaines IL 60018
